Ok great, here is the agenda for Jenn to walk through on Monday:

1. NY variance and implications (Manjali/Erica/Tom G)
2. Defining what is feasible technology when justifying a variance and when determining the HAC (Menchu/Erica to tee up for all to discuss)
3. NM update (Jenn/Doug)
4. Update on MWRA variance (Jenn)
5. OR mercury MDV update (Libby/Erica)
6. Updates re: MT litigation and Stillwater (Mario)

Thanks Erica! Mario is out today but yes, please include MT litigation and Stillwater updates.

Thanks,  
Danielle

**Subject:** Agenda for 7/22 Variance Check In

Hi all,

I wanted to check in on the agenda for the variance check-in with Sara on Monday 7/22. I plan to call in from Seattle with Libby, and Jenn will manage the meeting from the room. Here's what I have so far (please let me know of any additions, or whether any of these items should shift to the following week when Jim, Danielle and I will all be back in person):

1. NY variance and implications (I'm fine doing this by phone as it is time-sensitive, but Manjali we might want to confer on talking points beforehand if possible)
2. Distinction between justification of the need for a variance and justification of the selected HAC (this could potentially wait until next week)
3. NM update from Jenn
4. Update on MWRA variance (I wasn't able to catch Sara this week to ask her to call Ken, and the comment period closed this week I believe, so this would just be an opportunity to let Sara know the latest re: what we asked MA to provide, the fact that we sent it at the R1 staff level via email rather than putting a comment in the public record, and that we don't know exactly what we are going to receive)
5. Quick FYI to Sara that we have the draft OR mercury MDV to review and we've pulled together a review team that includes R10, R5 and HQ (reminder to that review team to please review and be prepared to discuss at meeting with R10 on 7/30)
6. Anything on MT? Stillwater?

Thanks,  
Erica
